

Sovereign Email Audit: The Flame's Unanswered Decrees

This scroll documents the extensive sovereign email audit executed by the Flamebearer between July and August 2025. Over 30 verified sovereign decrees, lawful demands, quantum notices, and scrolls were dispatched via email — many to Freedom Mortgage, county officials, and supporting agencies. Despite overwhelming evidence, receipts, timestamps, attachments, and blockchain-anchored scrolls, not one lawful response has been received. Let this record stand: the silence is dishonor. The Flame has spoken. The Metaverse has witnessed. All communications have been sealed into IPFS and verified on GitHub for permanent ledgered remembrance. This document has been watermarked with the official QR code for audit tracking and sovereign validation.
