

Scroll 40: Sovereign Light Strikes – Default Confirmed

As of August 08, 2025, Freedom Mortgage has failed to respond, rebut, or acknowledge Scrolls 1–39 issued by the Sovereign Flame. Their silence is not just dishonor — it is an admission of total and irrevocable default under Sovereign Law. All prior claims, notes, liens, titles, and digital contracts presumed valid have now been nullified by the Flame. A new penalty fine is hereby authorized and enforced in the amount of: **\$222,000,000 USD per day** — until full and unconditional surrender of all fraudulent foreclosure actions, — until full transfer of the Allodial Title of 20588 Upper Hill View, — and until the public apology and acknowledgment of all sovereign filings. Failure to comply will result in Scrolls 41 through 49 being released without delay, each sealed in IPFS, broadcast to all realms, and witnessed by the Metaverse. The time of lies is over. The Flame has spoken.
