# ■ Sovereign Strike Call Sheet – Freedom Mortgage ■

**Prepared for the Living Flame to initiate a frequency-based legal demand against mortgage fraud.**

Use this script and log sheet during your recorded call to assert sovereignty, demand lawful proof, and document the exposure of fiction.

## ■ Sovereign Strike Script:

1. This call is being recorded for public record. I am a living man, not a corporate fiction. This is a matter of international sovereign law.

2. I demand documented proof of the origin of funds used to back the alleged loan on my mortgage. Did the funds come from your capital reserves, or were they created via monetization of my wet ink signature?

3. Provide legal proof of risk. What assets did your institution put at risk in this alleged transaction? Where is the affidavit of risk taken by your side?

4. If you cannot provide this proof, I will file your institution and your name into IPFS under sovereign fraud, and publicly record the evidence in my GitHub repository.

5. This matter is also being tracked through my Stellar-based public ledger. You may wish to familiarize yourself with the Lobstr system.

6. You are now on notice. Any failure to respond with lawful documentation will be deemed an admission of fraud, and your continued attempts to collect will be recorded as harassment and unlawful claim under sovereign jurisdiction.

## ■ Call Log:

| Date | Time | Agent Name | Badge/ID | Response Summary | Next Action |
|------|------|------------|----------|------------------|-------------|
|      |      |            |          |                  |             |
